

## Home Harbour Rules

### 1. Securing vessels alongside the berth:

- a. The vessel must be firmly secured.
- b. Mooring lines must correspond to the size of the vessel and be designed for maritime use (lines suitable for vessels weighing up to 2.5 tons can be purchased from the Harbour Master).
- c. All vessels over 6 m long must use amortizers (can be purchased from the Harbour Master).
- d. All vessels must use appropriate fenders to avoid damaging the vessels and the dock (can be purchased from the Harbour Master).
- e. If the wind speed is more than 10 m/s (especially if blowing from the northeast) **the owner of the ship must come to the harbour and make sure that the vessel is securely in place** and/or contact the harbour master to get an overview of the situation at the harbour.
- f. **The harbour authority is not responsible for any damage to the ships;** every shipowner is responsible for damages to their ship as well as any damage that their ship might cause to harbour facilities and other vehicles.

### 2. Parking arrangement:

- a. Every contractor is entitled to one parking space on the harbour's premises. Visitors of the contractor must leave their vehicles outside the harbour area.
- b. Parking on the stone pavement is not allowed (except for loading goods on recreational crafts).
- c. If the stone pavement has been soiled with grease etc, you must inform the harbour master immediately; the harbour has special absorbents that help reduce the damage.

### 3. The premises open for home harbour customers and their guests is:

- a. The main gate and the driveway, the main dock, the road on the northern breakwall, the floating dock.
- b. The harbour's pedestrian gate locks automatically at 20.00 and opens at 8.00.
- c. The remote control for the harbour's car gate can only be used by the shipowner or persons authorized by the shipowner; it is forbidden to pass the remote control on to third persons. The remote control for the car gate must be returned to the harbour master when the contract period ends.

### 4. A log entry must be made every time your vessels arrives to or leaves from the harbour. Ask the harbour master for details.

### 5. Smoking on the harbour's premises is allowed only in the designated area.

### 6. Only ship-generated domestic waste can be placed in the domestic waste container.

### 7. Avoid causing waves in the aquatic area of the harbour; maximum allowed speed is 3 knots.

### 8. Before using power and water supply at the dock please inform the harbour master (contact the harbour master for a water hose).

### 9. Standing by the dock with a working engine for long periods of time is not permitted.

### 10. Night-time at the harbour starts at 23.00 and ends at 8.00 – avoid listening to loud music and causing noise during that time.
